A low-angle, upward-looking photograph of a modern glass skyscraper. The grid of window frames creates a strong sense of perspective and depth. The image is partially framed by blue geometric shapes at the top and bottom.

KCS Technology is emerged as market leader in providing cutting edge IT services across industries and across the globe in short span of time. We are serving through APAC, EMEA and America regions to take our operations Internationally.

KCS Technologies, the software company and is managed and steered by Venkata Kiran Amruthavaakkula, started getting a good name in the industry and got a good brand value in the industry in no time. Team is working hard to get a brand of one of the top 100 software services companies in India. We already started our own incorporation in Indonesia & USA.

EMEA Region

EMEA has always proved to be vital for growing businesses, especially for emerging technologies. KCS continues to strategically position products & services in this region, focusing to work with Fortune 500 companies. Many of these companies cater to the Oil & Gas, FMCG, BFSI, Construction and the Tourism segments.

Specific regions, particularly from the Middle East already have adopted niche technologies like ERPs, CRMs etc. from renowned tech giants. KCS partners with many, particularly SAP, Infor, Microsoft, and Oracle to deliver robust technologies in the region and continue to deliver support services on an ongoing basis. There has been an increasing demand for web and mobile technologies, to support the bigger vision of real time connectivity and delivering value to end customers.

Europe has always been the seat of power for major technological advancements in the region. ITES companies seem to dominate existence. KCS strategically partners with many to deliver varied services, particularly in the disruptive technologies space that seems to impact conventional technological adoption globally.

KCS has a huge impact in Africa and surrounding regions. As Africa goes on a technological revolution, KCS continues to support small to mid-size companies work smart, effectively and efficiently. Language is no barrier for us as we continue to deliver signature Operational solutions in multi languages.

KCS Technology focuses significantly on broadening its operations in Europe, the Middle East and Africa (EMEA) in 2020 with a view to bolstering the fast-changing commercial ecosystem around the world. We have been the epicentre of many Bids & Tenders, particularly for the United Nations and allied government and humanitarian organizations. Significantly partnering and supporting Big 5 companies in the region, making us the most competing companies for budget deals and value to end customers. Some of the signature solutions that we are delivering to our customers include Work Order Management, Asset Management, Inventory Management, eCommerce, Van Sales, SAP and Salesforce. We are also striving hard to support the EMEA community with a dedicated digital Offshore Development Centre (ODC) in times of crisis and the ongoing pandemic. This makes us a preferred value partner in the global markets today.

Picking up new projects in the USA market

From January 2020 we started building a rapid business model focusing on USA region. We took a quick leap and established a swift delivery model to execute couple of projects. We successfully executed 8 projects from various industry verticals.

KCS Technology also takes the pride in delivering diversified project in such a short span. As an example: we built a Learning Management Application, which will be implemented in multiple schools and other institutions across USA. One of our projects for a reputed manufacturing company based out of Utah, which manufactures products and sensors, those are served to the Industrial commercial weather stations. On successful enactment, our team received lot of appreciation from the clients.

KCS is building a robust 3D printing system with SCARA Arm using Embedded Machine Automation & Robotics Technologies for one of the most innovative Print Management company based out of New Mexico.

KCS partnered with a Large AR Game Development company based out of Georgia to feature its logo along with the partner's advertisement digital bill board at the famous Time Square, NY.

KCS Technology is reaching out to all the major players in Independent Software Vendors (ISVs), Manufacturing, Healthcare, Retail and further domains to deliver cutting edge technology and disruptive solutions.

Our offshore strength enables us to provide cost effective and quality delivery. So far we have reached out to near half a million companies with our service offerings, virtually met 250 C-level executives and built a pipeline of 30 clients with identified opportunities. We are expecting rapid business opportunities soon.

The solidification of our company is only through the comprehensive support of our team members. The state-of-the-art platform on sales and delivery is enabling us to explore and expand the technological boundaries on a global scale. Contribution from Biswa, Amitabh, Navneeta, Ganesh, Shravan and Subramanyam is enabling KCS Technology to WIN prominent clients in the USA market.
